

Installing Java 7

Part 1: Removing Java 5 Update 11

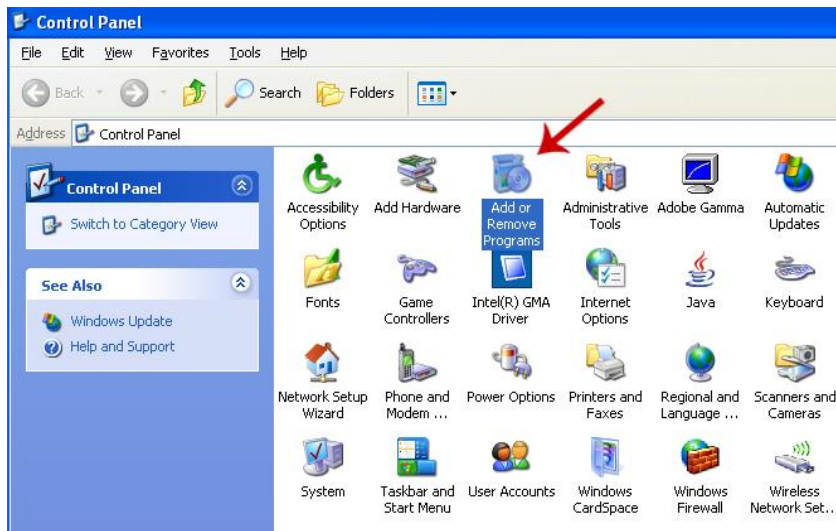

- 1) Close all internet browser windows (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, Opera).

Steps 2 and 3 for Windows XP users

- 2) Click the “Start” button, then “Settings” and then “Control Panel”

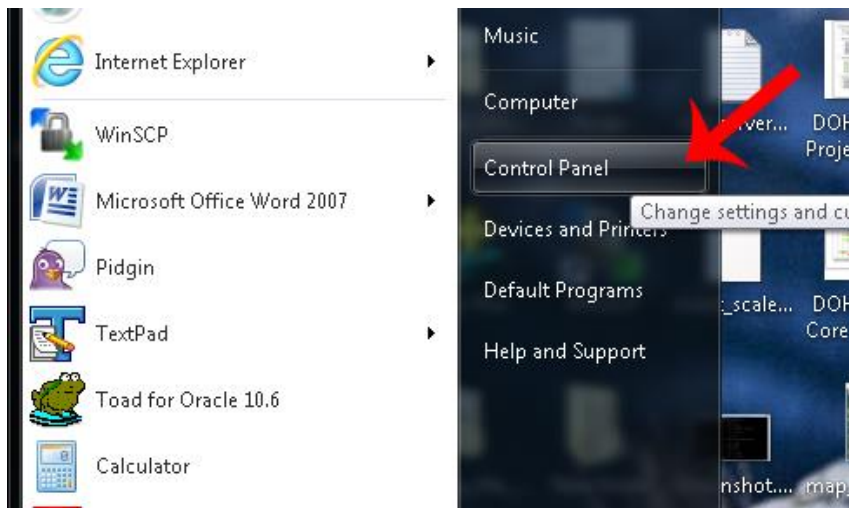

- 3) Double click on “Add or Remove Programs” (If you have your Control Panel display in :”List view”, then just find the Add or Remove Programs from the list)

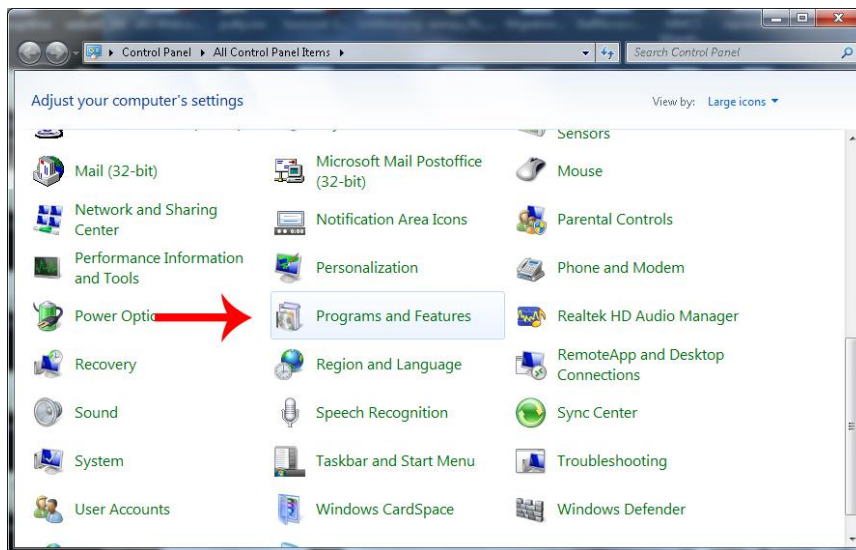

Steps 2 and 3 for Windows 7 users

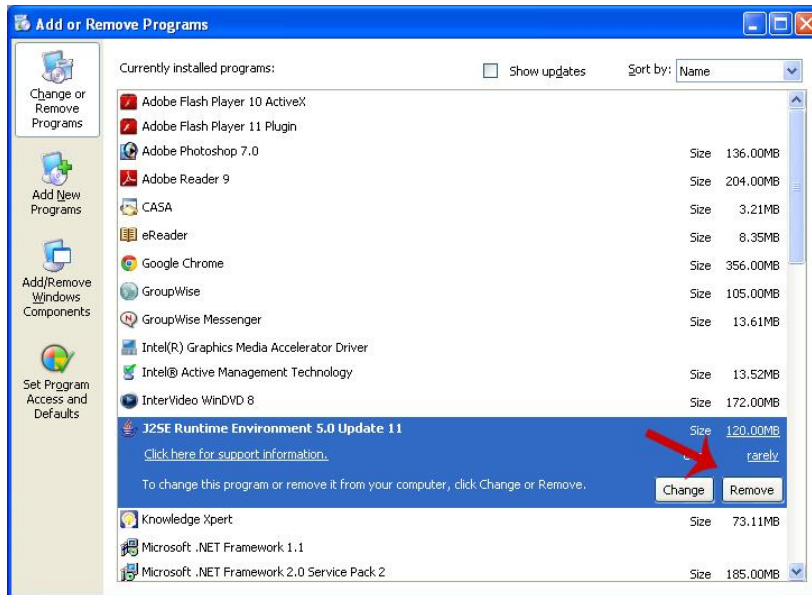

2) Click on the “Start” icon, and then “Control Panel”

3) Double click on “Programs and Features”.

- 4) Scroll through the the “Add or Remove Programs” screen until you locate the entry for “J2SE Runtime Environment 5.0 Update 11” and click the “Remove” button in that row. (If the “Remove” button is not there, or if you get an error telling you that you are not allowed to remove programs from your computers, you will need to contact your local Desktop Support for assistance.)

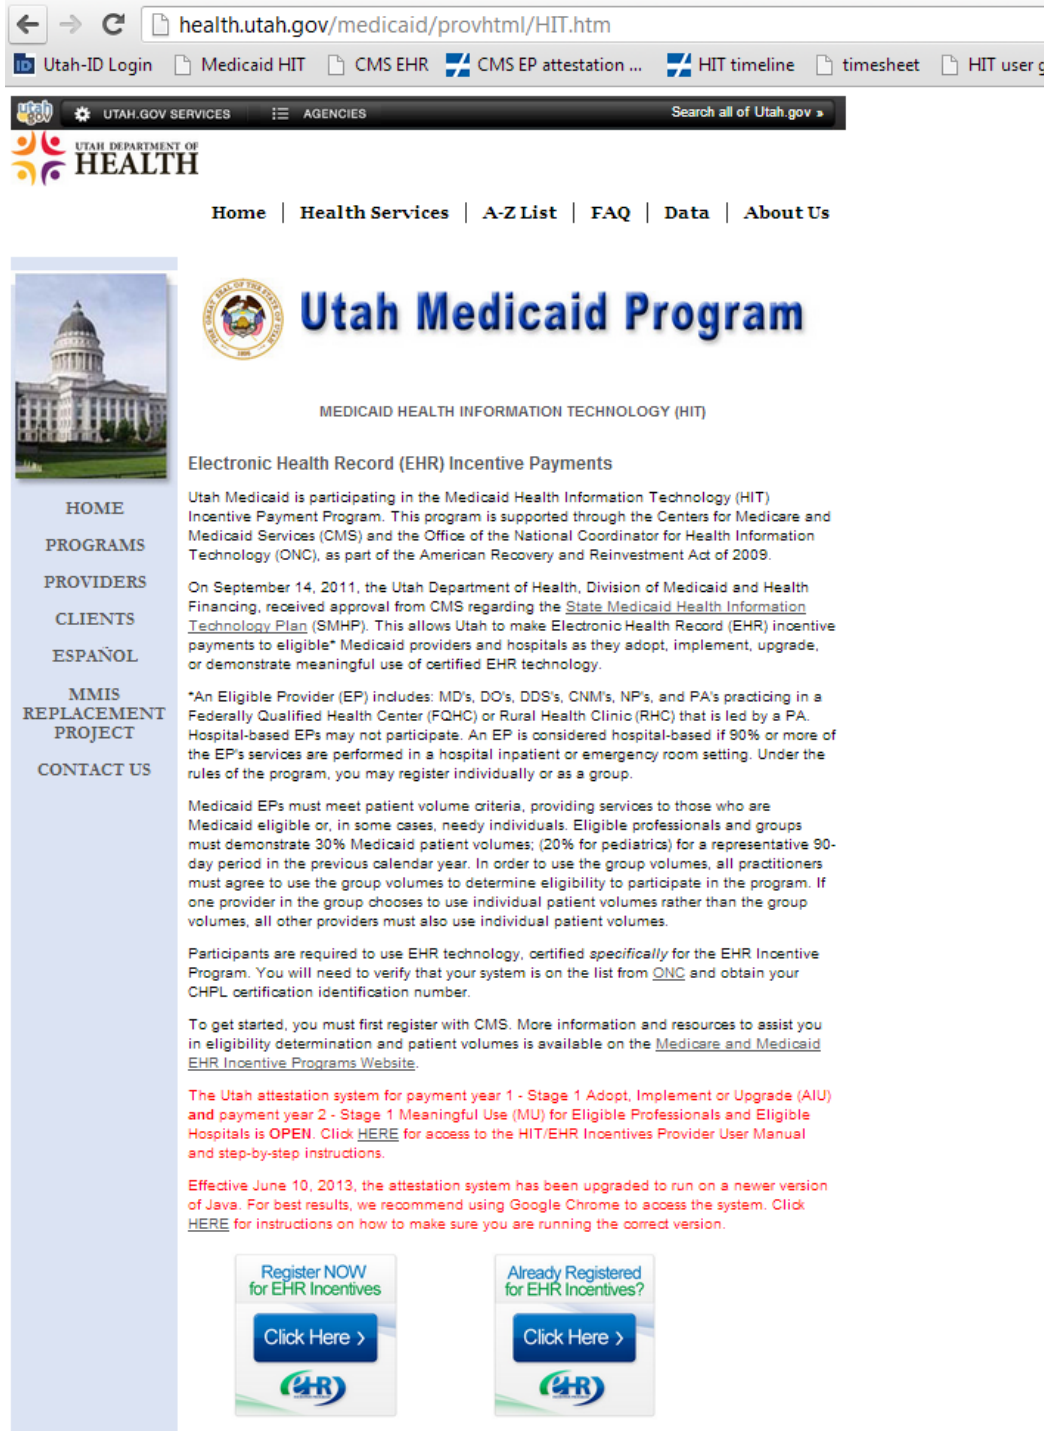

- 5) Repeat Step 4 if necessary to remove other versions of Java.
- 6) When asked if you are sure you want to remove this program, select “Yes”.
- 7) Once the old version of Java has been successfully removed, close the “Add or Remove Programs” window

Part 2: Logging in to the EHR Incentive Program Application and Installing Java 7

- 1) Open up Google Chrome and enter the following web address in the address bar:

<http://health.utah.gov/medicaid/provhtml/HIT.htm> and hit enter.

(The only browser that is supported at this time is Google Chrome)

The screenshot shows a web browser window with the address bar displaying health.utah.gov/medicaid/provhtml/HIT.htm. The browser's toolbar includes buttons for back, forward, and refresh, as well as a search bar. Below the address bar, there are links for "Utah-ID Login", "Medicaid HIT", "CMS EHR", "CMS EP attestation ...", "HIT timeline", "timesheet", and "HIT user g". The page header features the Utah Department of Health logo and a navigation menu with links for "Home", "Health Services", "A-Z List", "FAQ", "Data", and "About Us". The main content area is titled "Utah Medicaid Program" and "MEDICAID HEALTH INFORMATION TECHNOLOGY (HIT)". It includes a section for "Electronic Health Record (EHR) Incentive Payments" with detailed text about the program's goals, eligibility criteria, and registration process. At the bottom, there are two buttons: "Register NOW for EHR Incentives" and "Already Registered for EHR Incentives?", both with "Click Here >" links.

Utah Medicaid Program

MEDICAID HEALTH INFORMATION TECHNOLOGY (HIT)

Electronic Health Record (EHR) Incentive Payments

Utah Medicaid is participating in the Medicaid Health Information Technology (HIT) Incentive Payment Program. This program is supported through the Centers for Medicare and Medicaid Services (CMS) and the Office of the National Coordinator for Health Information Technology (ONC), as part of the American Recovery and Reinvestment Act of 2009.

On September 14, 2011, the Utah Department of Health, Division of Medicaid and Health Financing, received approval from CMS regarding the [State Medicaid Health Information Technology Plan \(SMHP\)](#). This allows Utah to make Electronic Health Record (EHR) incentive payments to eligible* Medicaid providers and hospitals as they adopt, implement, upgrade, or demonstrate meaningful use of certified EHR technology.

*An Eligible Provider (EP) includes: MD's, DO's, DDS's, CNM's, NP's, and PA's practicing in a Federally Qualified Health Center (FQHC) or Rural Health Clinic (RHC) that is led by a PA. Hospital-based EPs may not participate. An EP is considered hospital-based if 90% or more of the EP's services are performed in a hospital inpatient or emergency room setting. Under the rules of the program, you may register individually or as a group.

Medicaid EPs must meet patient volume criteria, providing services to those who are Medicaid eligible or, in some cases, needy individuals. Eligible professionals and groups must demonstrate 30% Medicaid patient volumes; (20% for pediatrics) for a representative 90-day period in the previous calendar year. In order to use the group volumes, all practitioners must agree to use the group volumes to determine eligibility to participate in the program. If one provider in the group chooses to use individual patient volumes rather than the group volumes, all other providers must also use individual patient volumes.

Participants are required to use EHR technology, certified *specifically* for the EHR Incentive Program. You will need to verify that your system is on the list from [ONC](#) and obtain your CHPL certification identification number.

To get started, you must first register with CMS. More information and resources to assist you in eligibility determination and patient volumes is available on the [Medicare and Medicaid EHR Incentive Programs Website](#).

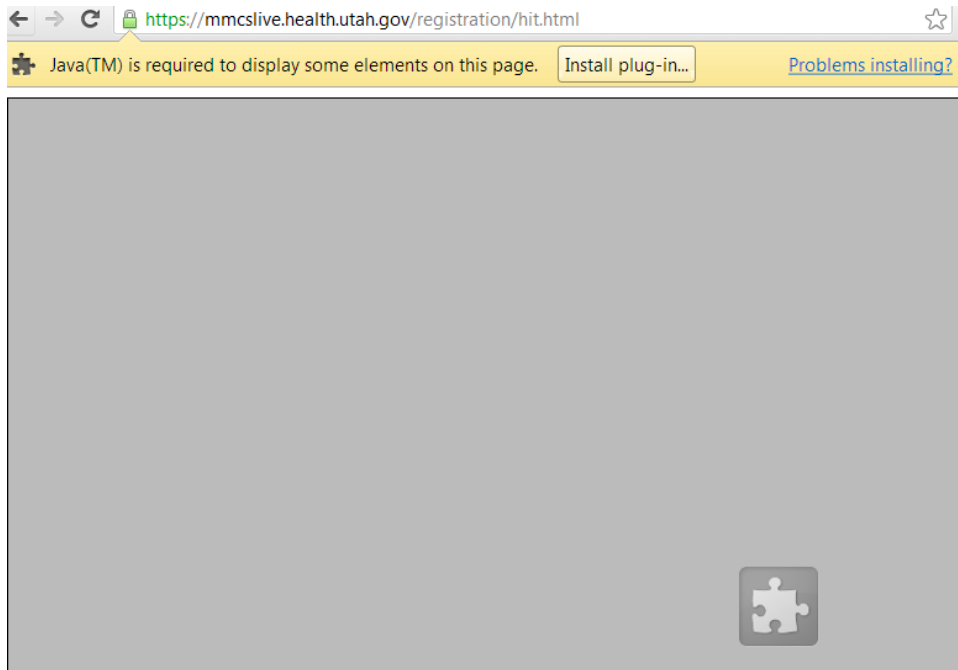

The Utah attestation system for payment year 1 - Stage 1 Adopt, Implement or Upgrade (AIU) and payment year 2 - Stage 1 Meaningful Use (MU) for Eligible Professionals and Eligible Hospitals is **OPEN**. Click [HERE](#) for access to the HIT/EHR Incentives Provider User Manual and step-by-step instructions.

Effective June 10, 2013, the attestation system has been upgraded to run on a newer version of Java. For best results, we recommend using Google Chrome to access the system. Click [HERE](#) for instructions on how to make sure you are running the correct version.

Register NOW for EHR Incentives Click Here >

Already Registered for EHR Incentives? Click Here >

- 2) "Click on Already Registered for EHR Incentives."
- 3) You will be prompted to install the Java plug-in. Click the "Install plug-in..." button.

4) Click the “Free Java Download” button.

5) a: Click the “Agree and Start Free Download” button.

b: Then click the “chromeinstall” button.

6) When you are asked if you want to run the file, click the “Run” button.

7) At the “Welcome” screen, click the “Install” button.

- 8) IMPORTANT: Make sure to *uncheck* the box that asks about including additional components (a:) (It will vary from one installation to the next.)

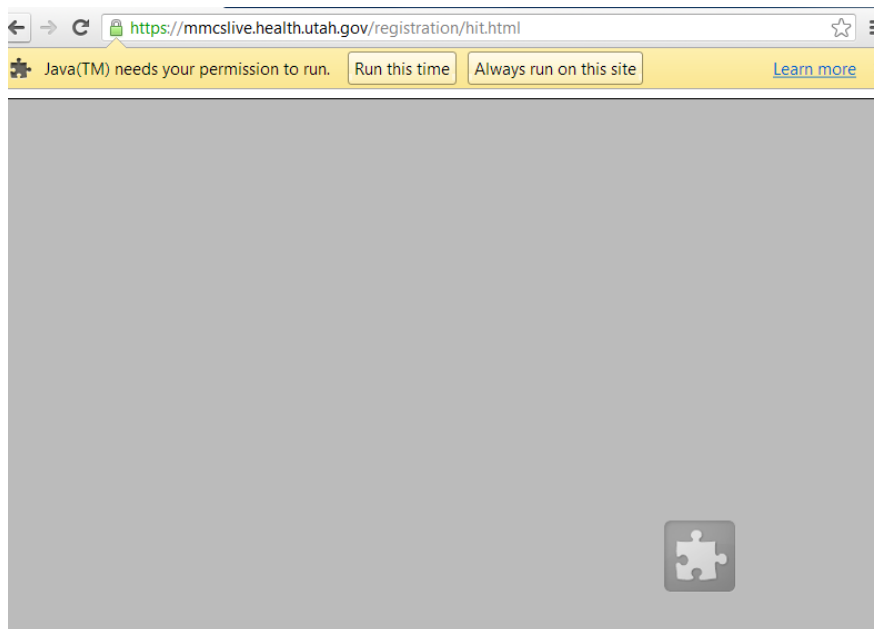

Then click the “Next” button (b:).

- 9) Java will install. This may take several minutes. Once it is done, click the “Close” button.

- 10) **Close all of your browser windows** and log back into EHR Incentive Program by going back to the program home page: <http://health.utah.gov/medicaid/provhtml/HIT.htm>
- 11) Click the "Already registered for EHR Incentives" button.
- 12) You will be notified that Java needs permission to run. Click the "Always run on this site" button.

- 13) A new dialog window will appear. In this window, check the box that says “Do not show this again for apps from the publisher and location above” (a:).

Then click the “Run” button (b:)

- 14) At this point, Chrome will load the application just as you are accustomed to seeing it.
